Shuyue Ge

Product Designer
Portfolio: shuyuege.github.io | LinkedIn: /shuyuege | shuy.ge2@gmail.com

SUMMARY

Product designer with experience shipping AI-native product and translating user research into interaction decisions. Owned design for three shipped redesigns in a live mental health product used by several thousand users, working closely with product and engineering from problem framing through launch. Strong in interaction design, prototyping, design systems, and qualitative research.

RELATED EXPERIENCE

Southwest Emergency Services | *Product Design Intern* **Jun 2026 – Aug 2026**

- Synthesized input from 11 stakeholders and usability test results to define redesign requirements and balance user needs, organizational priorities, and implementation constraints.
- Translated research findings into low-fidelity concepts and high-fidelity Figma designs with another designer, while tracking unresolved decisions and content dependencies through a structured inventory.

Silver Skye NY Creative Inc. | *Product Design Intern* **Mar 2026 – May 2026**

- Owned and shipped 3 core interaction redesigns for an AI-native wellbeing product used by several thousand users, working as the sole product designer alongside a product manager and 3 engineers from problem framing through launch.
- Used usability testing with 5 participants, heuristic evaluation, and user feedback to redesign navigation, conversational interactions, and health-record workflows.
- Established reusable interaction patterns and design-system conventions to improve consistency across core flows while adapting designs to engineering constraints.

CARE Lab, UMBC | *Research Assistant* **Apr 2025 – October 2026**

- Conducted qualitative UX research with 30+ participants and facilitated participatory design to uncover trust, adoption, and usability needs around mental-health apps and AI tools.

ADDITIONAL EXPERIENCE

CISAAD, UMBC | *Student Assistant* **Feb 2026 – Jun 2026**

Refined information architecture and standardized content across 33 web pages using HTML and WordPress; audited accessibility against UMBC guidelines.

UMBC CSSA | *Visual Designer* **Feb 2026 – Present**

Developed an organization-adopted logo and 15 posters across digital and print contexts.

EDUCATION

University of Maryland, Baltimore County **Expected Dec 2026**

M.S. in Human-Centered Computing | GPA: 3.97

Capital University of Economics and Business

B.A. in Business Translation

SKILLS

- **Product Design:** Interaction design, visual/UI design, information architecture, user flows, wireframing, prototyping, conversational UX, design systems
- **Research:** User interviews, usability testing, heuristic evaluation, qualitative analysis, participatory design
- **Tools & Implementation:** Figma, Miro, ChatGPT, Codex, WordPress, Adobe InDesign, HTML, CSS
